EXPERIENCE

Data Analyst, Aperix.AI, Raleigh, NC

Jul 2025 – Present

- Built Power BI dashboards to track AI-bot features, usage trends, and AI-bot response KPIs, supporting performance improvement
- Automated recurring reports in Excel using VLOOKUP, Pivot Tables, and macros, reducing manual reporting effort by 5%
- Validated reporting datasets using SQL and Azure sources, reducing metric discrepancies and rework during product releases

Data Analyst, American Technology Consulting, Raleigh, NC

Jul 2025 – Nov 2025

- Tracked and governed system and performance metrics to ensure consistent, accurate stakeholder reporting
- Developed 3+ Power BI dashboards using Power Query and DAX to transform system data and standardize reporting across teams
- Analyzed ERP workflows and requirements, defining system logic and improving reporting efficiency and cross-team data alignment

Data Insights Analyst, Nasoni - (Venture Opportunity Analytics Practicum), Raleigh, NC

Jan 2025 – Apr 2025

- Collected and analyzed 300+ Qualtrics survey responses, performing data cleaning and validation in Excel to improve data accuracy
- Performed statistical regression analysis in R to identify market gaps and analyze customer, remodeler, and market requirements
- Created Tableau dashboards tracking 5+ KPIs to forecast demand and financial trends, guiding pricing, ROI and GTM strategy

Supply Chain Data Analyst, Volvo - (Supply and Business Analytics Practicum), Raleigh, NC

Aug 2024 – Dec 2024

- Queried supply datasets using SQL, resolving inconsistencies and improving data quality and reporting accuracy by 15%
- Produced Visio flowcharts documenting demand–supply issues, identifying bottlenecks and improving vendor performance
- Built Azure-based Power BI data models using DAX for OTD, lead time, and supplier KPIs, improving on-time delivery by 10%

Business Data Analyst, Atlys, Mumbai, India

Jul 2022 – July 2023

- Analyzed and mapped visa datasets using Excel and SAP ERP across 10+ countries, increasing approval accuracy by 20%
- Supported Azure Data Factory pipelines into Azure SQL Database and Synapse, improving data quality and reducing reporting delays
- Applied A/B testing to Smart ETA and compliance features, enhancing delivery transparency and application reliability
- Created Power BI data models and dashboards using Power Query, DAX, and Salesforce to identify visa operational gaps and deliver up to \$50K in cost savings

Supply Chain Data Analyst, Dunzo (Google-Backed Company), Pune, India

Aug 2021 – Dec 2021

- Handled partner onboarding and incentive data for 5K+ delivery partners, enabling surge adjustments in high-demand zones
- Built Tableau dashboards using KPIs and automated S&OP reports using Smartsheet, driving a 25% reduction in citywide stockouts
- Reconciled 20K+ supply records using SQL and Oracle ERP data, improving demand–supply accuracy for daily decisions by 15%
