## Business Data Analyst

+1 (561) 599-0828 | [indukurinitinverma@gmail.com](mailto:indukurinitinverma@gmail.com) | Florida, USA | [LinkedIn](#)

### SUMMARY

Business Analyst with 4+ years of experience supporting enterprise-level finance, claims, and compliance initiatives. Skilled in requirements elicitation, process modeling, UAT leadership, and business solution design. Hands-on experience with claims financial data, reimbursement cycles, and regulatory-reporting workflows. Proven ability to mentor junior analysts, standardize BA documentation, and collaborate with cross-functional teams. Strong technical foundation with SQL, SAP, Power BI, and Python, enabling deep analysis and data-driven decision support.

### SKILLS

**Insurance & Financial Domain:** Financial KPIs, Budget vs Actuals, Profitability, Cost Optimization, Forecasting.

**Data Extraction:** Advanced SQL, MySQL, NoSQL (MongoDB), SAP S/4HANA, SAP BW, SAP ERP, SQL Server.

**Data Cleaning & Transformation:** Python (Pandas, NumPy), ETL design and automation, Bash scripting.

**Data Visualization:** Power BI (advanced DAX, interactive dashboards), Tableau, R (ggplot2, custom visualizations).

**Financial Analysis:** Variance Analysis, Forecasting, Budgeting, Profit & Loss (P&L) Reporting, ROI Analysis, KPI Dashboards, Risk Assessment.

**Documentation:** FRD, BRD, User Stories, RTM

**Collaboration Tools:** MS SharePoint, JAD Sessions, User Acceptance Testing (UAT), ServiceNow.

**Project Management:** MS Project, Agile Scrum, Waterfall, JIRA.

### EXPERIENCE

#### Business Data Analyst, State Street, USA

Jan 2025 – Present

- Led business analysis for the **Claims Financial Intelligence Platform**, defining requirements, documenting BRDs/FRDs, and modeling end-to-end claims and reimbursement workflows.
- Unified fragmented claims data across SQL Server and SAP systems, improving reporting accuracy and decision-making speed by **40%**.
- Collaborated with risk, compliance, and finance SMEs to interpret **regulatory requirements** and translate them into functional system needs.
- Facilitated stakeholder workshops to clarify claims validation rules, reimbursement processes, exception handling, and policy-driven calculations.
- Designed RTM and coordinated **UAT**, including test planning, test case creation, defect tracking, and stakeholder sign-off.
- Automated data validation and reconciliation steps using SQL and Python, reducing manual processing by **30%**.
- Developed dashboards tracking claims aging, denial costs, expense ratios, and reimbursement timelines, supporting actuarial and finance reviews.
- Performed variance analysis on claims and portfolio performance, enabling a **10%** improvement in risk-adjusted returns.
- Mentored junior analysts on requirements documentation, SQL testing approaches, and UAT best practices.
- Enhanced ServiceNow financial request workflows and dashboards, reducing process bottlenecks by **20%**.

#### Business Data Analyst, Cyient, India

Jul 2020 – Jul 2023

- Gathered and documented business requirements (BRD, FRD, User Stories) for automated financial and compliance reporting solutions.
- Built workflow and process models for revenue, risk scoring, and credit policy operations.
- Supported compliance and regulatory teams by designing data-driven reporting requirements meeting audit guidelines.
- Designed UAT plans and executed test cycles for financial dashboards and data pipelines; logged and validated defects across multiple systems.
- Developed SQL-based credit risk monitoring reports that improved early delinquency detection and mitigation strategies.
- Consolidated multiple financial data sources to streamline compliance reporting, reducing audit preparation time by **25%**.
- Built Power BI dashboards for sales, orders, and operational performance with interactive self-service features.
- Identified **\$100K+** savings opportunities through financial impact assessments and cost optimization analysis.
- Provided informal coaching to new analysts on documentation standards, SQL validation, and data interpretation.

### EDUCATION

Master's in Data Science and Analytics, Florida Atlantic University, Boca Raton, FL, USA

Aug 2023 – May 2025

### CERTIFICATIONS

SAP ABAP Certificate
