

Anil Kumar Mojjada

Baltimore, Maryland | +1 (203) 676 6074 | anilkumarmojjada0124@gmail.com

PROFESSIONAL SUMMARY

Data-driven Supply Chain Analyst global experience in across pharmaceuticals and consulting. Proven expertise in Python, SQL, Tableau, SAP, and ML to drive efficiencies in procurement, logistics, forecasting, and cold chain operations. Adept at building predictive models, automating workflows, and deploying analytics solutions that reduce costs, improve SLA compliance, and enhance supply resilience. Skilled collaborator with cross-functional teams to implement scalable, audit-ready, and insights-driven supply chain systems.

TECHICAL SKILLS

Programming & Analytics Tools: Python (Pandas, NumPy, scikit-learn, matplotlib, Seaborn), SQL, R (basic), Jupyter Notebooks

Data Visualization & BI Tools: Tableau, Power BI, Microsoft Excel (advanced: PivotTables, VLOOKUP, Macros)

Machine Learning & Forecasting: Time Series Forecasting, Regression Analysis, Clustering (K-Means), Predictive Modeling, Demand Forecasting, ML Model Deployment

Geospatial & Optimization Tools: ArcGIS, Geospatial Mapping, Route Optimization, Network Optimization, Linear Programming, Integer Programming

ERP & Supply Chain Systems: SAP MM (Materials Management), ERP System Integration, RFID/IoT Cold Chain Monitoring, Purchase Order Automation, Vendor Management Systems

Data Engineering & Workflow Automation: ETL Processes, Data Cleaning, Data Modeling, Workflow Automation, Alert Systems, Escalation Workflow Design

Database Management: Relational Databases, Data Warehousing, Data Extraction, SQL-based Reporting

Collaboration & Project Management: Agile Methodology, JIRA, Confluence, Cross-functional Team Collaboration, Stakeholder Communication

PROFESSIONAL EXPERIENCES

Supply Chain Analyst

Amgen, USA | Aug 2025 - Present

- Designed and implemented a dynamic warehouse slotting model using Python and SQL, reducing average picking time by 28% and saving \$480K annually across 5 e-commerce distribution centres.
- Built and deployed geospatial optimization models using ArcGIS and K-Means clustering to reconfigure last-mile delivery zones, improving route efficiency and SLA compliance by 11%.
- Developed real-time Tableau dashboards integrating RFID IoT sensor data for temperature-sensitive pharmaceutical shipments, reducing cold chain breaches by 47%.
- Created a supplier risk scoring model incorporating delivery performance, quality audits, and regulatory history, contributing to a 34% reduction in critical stockouts.
- Automated escalation workflows and alert systems for cold chain monitoring, reducing average incident response time from 3 hours to under 1 hour.
- Collaborated cross-functionally with operations, procurement, logistics, QA, and compliance teams to align analytics solutions with execution, resulting in scalable, audit-ready supply chain processes.

Supply Chain Analyst

Tata Consultancy Services (TCS), India | Mar 2021 – Jul 2023

- Conducted procurement analytics and vendor performance evaluation using SAP MM and Excel, enabling the consolidation of 60+ suppliers to 25 strategic partners and achieving 12% cost savings.
- Designed and implemented supplier scorecards and forecasting models to support long-term contract negotiations, reducing lead time variability by 18% and improving OTIF delivery to 95%.
- Automated purchase order tracking and invoice matching workflows in SAP MM, improving procurement cycle efficiency and reducing manual errors by over 30%.
- Led the development of ML-driven demand forecasting models for 50,000+ SKUs using Python and scikit-learn, improving forecast accuracy from 68% to 90%.
- Integrated weather, festivals, and promotional data into ERP-linked forecasting systems, contributing to a 25% reduction in spoilage and 30% fewer stockouts.
- Collaborated with cross-functional teams (finance, planning, IT, marketing) to operationalize insights and transition from manual to predictive, data-driven supply chain processes.

EDUCATION

Masters in Engineering and Operations Management | Aug 2023 – May 2025

University Of New Haven, New Haven, Connecticut, USA

Bachelors in Mechanical Engineering | Aug 2018 – Aug 2022

Lovely Professional University, Punjab, India

CERTIFICATIONS

- Google Project Management
- Lean Six Sigma Green Belt Certification
- Workshop for QBDC Season-6
- Received certification in Finance for Non-Financial Professionals
