Location: Atlanta, GA | Mobile: 943-242-0208 | Email: Saivardhan81@outlook.com | [LinkedIn](#)

SUMMARY

Software Engineer with **3+ years of experience** developing enterprise applications using **Java, Spring Boot, REST APIs, and Angular**. Skilled in building backend services, integrating relational databases, and automating CI/CD pipelines in cloud-enabled environments. Proven ability to collaborate across engineering, QA, and product teams to deliver secure, scalable, and compliant.

PROFESSIONAL EXPERIENCE

Software Engineer | Liberty Mutual | USA | Nov 2025 – Present

- Designed backend services using **Java, Spring Boot**, and **REST APIs**, applying analytical problem-solving to support 14 insurance workflows processing policy, claims, and billing transactions daily.
- Implemented responsive user interfaces with **Angular, TypeScript**, and **HTML/CSS**, collaborating with UX and product teams to deliver 22 production UI components across customer and agent portals.
- Integrated data persistence using **PostgreSQL** and **Hibernate**, exercising attention to detail to support 11 domain entities covering policies, endorsements, and claims lifecycle events.
- Automated build and deployment pipelines using **Git, Maven**, and **CI/CD pipelines**, demonstrating ownership by reducing release preparation time from 2 days to 3 hours.
- Collaborated with QA engineers, cloud teams, and business analysts to support **UAT**, defect triage, and release readiness, enabling 9 successful releases aligned with insurance compliance standards.
- Influenced platform consistency by standardizing **API contracts, coding standards**, and **technical documentation** in **Confluence**, accelerating onboarding for 3 new engineers across shared services.

Software Engineer | Dell Technologies | India | Aug 2020 – Jul 2023

- Designed backend services using **Java, Spring Boot**, and **REST APIs**, applying analytical problem-solving to support 16 enterprise application workflows handling product configuration and order lifecycle data.
- Developed user-facing modules with **Angular, TypeScript**, and **HTML/CSS**, collaborating with product and UX teams to deliver 20+ reusable UI components adopted across internal customer portals.
- Implemented data persistence using **MySQL, Hibernate**, and **JPA**, exercising attention to detail to manage 13 core domain entities supporting inventory, pricing, and fulfillment systems.
- Automated build and deployment workflows using **Git, Maven**, and **CI/CD pipelines**, demonstrating ownership by reducing release execution time from 1 day to 2 hours across sprint cycles.
- Collaborated with QA engineers and business analysts to support **UAT**, defect resolution, and sprint delivery, enabling 10 successful releases aligned with enterprise quality standards.
- Standardized **API contracts, code review practices**, and **technical documentation** using **Confluence**, improving cross-team consistency and accelerating onboarding for 3 new engineers.

TECHNICAL SKILLS

- Programming Languages:** Java (8–17), Java/J2EE, JavaScript (ES6+), TypeScript, SQL
- Backend Development:** Spring Boot, Spring MVC, Spring Security, Hibernate/JPA, REST APIs, Microservices
- Frontend Development:** React.js, Angular (v12+), HTML5, CSS3, Bootstrap, Material UI
- Web & API Technologies:** RESTful services, JSON, XML, API integration, Microservices architecture
- Databases:** PostgreSQL, MySQL, Oracle, MongoDB
- Messaging & Streaming:** Apache Kafka (event-driven communication)
- Cloud Platforms:** AWS (EC2, S3, RDS, EKS), Azure (App Services, basic cloud integration)
- Containerization & DevOps:** Docker, Kubernetes, CI/CD pipelines (Jenkins, GitHub Actions)
- Build & Version Control:** Maven, Gradle, Git, GitHub/GitLab, Swagger/OpenAPI
- Testing & Quality Assurance:** JUnit, Mockito, integration testing, Postman
- Security:** Spring Security, JWT, OAuth2, OWASP security fundamentals
- Monitoring & Logging:** ELK Stack, CloudWatch
- System Design & Architecture:** Microservices design, LLD, scalability & performance optimization
- Development Practices:** Agile (Scrum), SDLC, code reviews, technical documentation

EDUCATION

Auburn University at Montgomery, AL - M.S. in Computer Science

2025
