

Sosina Duki
Springfield, VA
Business Data Analyst

Summary

Data Analyst with 5+ years of experience working with SQL, Python, Tableau, and Power BI to turn complex data into clear, actionable insights. Experienced in building dashboards, automating reporting processes, and collaborating with stakeholders across telecom and insurance.

Skills

- SQL: SQL Server, MySQL, PostgreSQL
- Python: Pandas, NumPy, Matplotlib
- BI & Reporting: Tableau, Power BI (DAX, Power Query), SSRS
- ETL & Automation: SSIS, automated data refreshes
- Cloud & Big Data: Azure Data Lake, Databricks, PySpark
- Tools: Excel (Pivot Tables, VLOOKUP/XLOOKUP), JIRA, Confluence

Experience

Business Data Analyst – Hughes Network Systems

Aug 2021 – Present | Germantown, MD

- Worked with business and IT teams to improve reporting and automate manual processes.
- Built and maintained Tableau dashboards using SQL databases and Excel.
- Managed ETL workflows with SSIS and SSRS to support scheduled reporting.
- Cleaned and analyzed data using SQL and Python for asset tracking and planning.
- Created reports for leadership on project timelines and resource usage.
- Used JIRA and Confluence to document requirements and Agile work.

Data Analyst – Federated Insurance Company

Jan 2021 – Jul 2021 | Mankato, MN

- Helped develop a salary and performance tracking system using SQL and Excel.
- Collected, cleaned, and validated data for reporting accuracy.
- Built Power BI dashboards using DAX and Power Query.
- Presented insights in clear, non-technical language to stakeholders.
- Supported reporting automation to reduce manual effort.

Education

Bachelor of Science in Information Technology
Mankato, MN | Jan 2018 – May 2021
